Good	Signup + Login forms allowing new members to singup	Dashboard shows assessments for logged in user.	none	+BMI Category	Deployed		
Excellent	Account Settings View allowing user to change details	includes comment field	Trainer Accounts (preloaded from yaml). Trainer logs in and can see member list. Trainer can then see assessments for a user and can comment on an assessment	+Ideal Body Weight	Deployed	basic git repo	utility
Outstanding	Members can delete individual assessments	Date/Time for each assessment. Assessment always listed in reverse chronological order	Trainers can delete any user	+Trend via simple red/ green label	Deployed	git repo with version history	utility+

ICT Skills Assignment

Implement *Web Development Assignment 2* using *Javascript/Glitch*

Augment the solution to include **Goals**

A Goal has
- a date
- a measurement(s)
- a status (open, missed, achieved)
- can be set by a user OR a trainer

ICT Skills Assignment

Grade Range	Member	Trainer	Assessment	Goals	Reports	Git
Baseline	Member model: name, email, password, address, gender, height, startingweight.	none	Assessment consisting of weight, chest, thigh, upper arm, waist, hips Multiple Assessments associated with single user. Form to add more assessments in UX	none	- List of all assessments - Current BMI	none
Good	Signup + Login forms allowing new members to signup. Account Settings View allowing user to change details	Trainer Accounts (preloaded from json). Trainer logs in and can see member list. Trainer can then see assessments for a user and can comment on an assessment	Dashboard shows assessments for logged in user, including comment field	none	-BMI Category -Ideal Body Weight	basic git repo
Excellent	Members can delete individual assessments. Members can set goals	Trainers can delete any user	Date/Time for each assessment.	Goals: - Future date - Measurement	-Trend via simple red/green label	git repo with version history
Outstanding	Show Goal Status prominently on login	Trainer can set Goals for a Member	Assessment always listed in reverse chronological order	Goal Status: - open (future) - achieved - missed	- Goal Summary (nmr. achieved/missed)	git repo with version history + tagged releases
